

American Journal of ORTHODONTICS

*Official publication of the American Association of Orthodontists,
its constituent societies, and the American Board of Orthodontics*

Editors

Wayne G. Watson, D.D.S., *Editor-in-Chief*

Mailing Address: Post Office Box 1886, La Jolla, California 92038

Street address: 484 Prospect, Room P, La Jolla, California 92037

Telephone: (714)459-1749

Earl E. Shepard, D.D.S., *Assistant Editor*

225 South Meramec Avenue, St. Louis, Missouri 63105

T. M. Graber, D.M.D., Ph.D., *Editor of Reviews and Abstracts*

450 Green Bay Road, Kenilworth, Illinois 60043

B. F. Dewel, D.D.S., *Editor Emeritus*

2007 Bennett Avenue, Evanston, Illinois 60201

J. A. Salzmann, D.D.S., *Editor Emeritus of Reviews and Abstracts*

25 Sutton Place South, New York, New York 10022

Editorial Board

Wayne G. Watson, D.D.S., *Chairman*

P.O. Box 1886, La Jolla, California 92038

Marvin C. Goldstein, D.D.S.

1218 West Paces Ferry Road, N.W., Atlanta, Georgia 30327

James A. McNamara, Jr., D.D.S.

311 N. Ingalls, Ann Arbor, Michigan 48104

Donald R. Poulton, D.D.S.

1721 Santa Clara, Alameda, California 94501

Everett Shapiro, D.D.S.

1146 Beacon Street, Brookline, Massachusetts 02146

Jerome M. Zweig, D.D.S.

80 N. Gaston Ave., Somerville, N.J. 08876

Editorial Assistant

Penny Wilkes

Subject index

A

Acid gel, etching of young permanent teeth with (Brännström, Malmgren, and Nordenvall), 379
Activator growth augmentation, 525 (Abst.)
Adenoid facies; relation between nasorespiratory function and dentofacial morphology (O'Ryan et al.), 403
Adhesives, orthodontic, tissue reaction to (Davidson, Sheinis, and Shepherd), 502
Airflow, oral-nasal, measurement (Gurley and Vig), 33
Amelogenesis imperfecta, anterior open-bite and, 347 (Letter to editor)
American Association of Orthodontists, 1982 annual session, 86, 175
 1983 annual session, 356
 Board of Trustees, 266
 Councils, 1982-1983, 173
 Distinguished Service Award to Faustin N. Weber, 267
 honors and awards, 172
 Ketcham Award to Frederick T. West and Fred F. Schudy, 267
 meeting calendar, 87, 175, 267, 443, 520
 officers and organizations, directory, 88, 176, 268, 360, 444, 530
 Richard M. Railsback new president, 357
American Board of Orthodontics, 172
AMERICAN JOURNAL OF ORTHODONTICS, consultants, 527
 progressive communication, 75 (Editorial)
Analysis, biorthogonal; on cephalometrics of skeletal change (Bookstein), 177
 experimental force, of contraction utility arch wire (Murphy et al.), 411
Analytical mechanics and analysis of orthodontic tooth movements, 164 (Letter to editor)
Ankylosis; clinical assessment of injuries in orthodontic movement of impacted teeth (Boyd), 478
Anthropometry of head and face in medicine, 438 (B. rev.)
Antibodies, anti-nasal septal cartilage, effects of, on mid-face growth and development, 82 (Abst.)
Appliance, bonded, palatal expansion using (Howe), 464
 Fränkel, arch width development in Class II patients treated with (McDougall, McNamara, and Dierkes), 10

Appliance, Fränkel—Cont'd
 treatment, orofacial changes resulting from, 354 (Abst.)
 functional protrusive; histologic analysis of temporomandibular joint adaptation to protrusive function in young adult rhesus monkeys (*Macaca mulatta*) (McNamara, Hinton, and Hoffman), 288
 questioned, 519 (Editorial)
Herbst, hemifacial microsomia treated with (Sarnäs et al.), 68
 mechanism of Class II correction in treatment with (Pancherz), 104
MARS (Clements and Jacobson), 445
maxillary orthodontic, observation of orthopedic force distribution produced by (Chaconas and Caputo), 492
orthopedic, inducement and condylar cartilage growth acceleration in young rat, coupling mechanisms between, 80 (Abst.)
rapid palatal expansion, comparison of two, and their effect on palatal cross-sectional area, 526 (Abst.)
Arch, lower, spacing/crowding and facial height and depth, relationship between (Leighton and Hunter), 418
 segmented, approach to space closure (Burstone), 361
 width development in Class II patients treated with Fränkel appliance (McDougall, McNamara, and Dierkes), 10
wire, contraction utility, experimental force analysis of (Murphy et al.), 411
 effect of long-term immersion corrosion on flexural properties of nitinol (Schwaninger, Sarkar, and Foster), 45
 mushroom, multilingual bracket and, technique (Fujita), 120
 nickel-titanium and beta titanium, comparison of elastic properties of (Kusy and Greenberg), 199
Australian Orthodontic Congress, 529

B

Behavior modification; long-term benefits of orthodontic treatment on oral hygiene (Feliu), 473
Best, Elmer S., Award to Roberto M. Ruff, 529
Biocompatibility of dental materials, 522 (B. rev.)
Bionator, skeletal and dento-alveolar changes in patients treated with, during prepubertal and pubertal growth, 170 (Abst.)
Bite jumping; mechanism of Class II correction in Herbst appliance treatment (Pancherz), 104
 opening, postural response of head to, in adult males (Daly, Preston, and Evans), 157

July, pp. 1-88; August, pp. 89-176; September, pp. 177-268; October, pp. 269-362; November, pp. 361-444; December, pp. 445-542.

- Body-image perception; saliency of dentofacial cues in children with orofacial clefts, 83 (Abst.)
- Bond strength, assessment of bracket placement and, when comparing direct bonding to indirect bonding techniques (Aguirre, King, and Waldron), 269
- Bonded appliance, palatal expansion using (Howe), 464
- Bonding, direct, shearing strength of recycled direct-bonding brackets (Mascia and Chen), 211
- tissue reaction to orthodontic adhesives (Davidson, Sheinis, and Shepherd), 502
- etching of young permanent teeth with acid gel (Brännström, Malmgren, and Nordenvall), 379
- techniques, direct and indirect, assessment of bracket placement and bond strength when comparing (Aguirre, King, and Waldron), 269
- Bone dehiscence; effects of incisor repositioning on monkey periodontium after expansion through cortical plate (Engelking and Zachrisson), 23
- mandibular and hyoid, movements before and after surgical correction of mandibular prognathism (Miotti), 310
- Boucher's clinical dental terminology, 168 (B. rev.)
- Bracket, multilingual, and mushroom arch wire technique (Fujita), 120
- placement and bond strength when comparing direct bonding to indirect bonding techniques, assessment of (Aguirre, King, and Waldron), 269
- recycled direct-bonding, shearing strengths of (Mascia and Chen), 211
- Buccolingual width of first molars, prediction of mesiodistal widths of unerupted canines and premolars utilizing, 84 (Abst.)
- C
- Calcification, canal, incidence of, in orthodontic patient (Delivanis and Sauer), 58
- California Dental Association, Arthur A. Dugoni installed as president, 358
- Michael L. Perich new treasurer of, 359
- Canadian Association of Orthodontists, 266
- Canal calcification, incidence of, in orthodontic patient (Delivanis and Sauer), 58
- Cancer, maxillofacial, detection of, 437 (B. rev.)
- Canines, impacted; clinical assessment of injuries in orthodontic movement of impacted teeth (Boyd), 478
- retraction, changes in clinical crown height of lower incisors associated with, in extraction cases, 84 (Abst.)
- Cartesian transformations; on cephalometrics of skeletal change (Bookstein), 177
- Cartilage, condylar, growth acceleration, coupling mechanisms between orthopedic appliances inducement and, in young rat, 80 (Abst.)
- Cephalometric measurements (Letter to editor), 78
- radiography, atlas and manual of, 350 (B. rev.)
- Cephalometrics of skeletal change (Bookstein), 177
- Chewing, relationship between lip strength and lip function in posture and, 353 (Abst.)
- Child as patient, 525 (Abst.)
- Clefting, possible sex-discriminant variables in craniofacial growth in (Long, Jain, and Krogman), 393
- Colombian Society of Orthodontics, 359
- Columbia University Distinguished Service Award for 1982 to H. Curtis Hester, 528
- Communication, progressive, 75 (Editorial)
- Composite; shearing strengths of recycled direct-bonding brackets (Mascia and Chen), 211
- Condylar growth, anterior mandibular displacement and (Tongue, Heath, and Meikle), 277
- Condyle resorption; surgical advancement of retrognathic mandible in growing children (Huang and Ross), 89
- Connective tissues, mineralized, chemistry and biology of, 438 (B. rev.)

- Contraction utility arch wire, experimental force analysis of (Murphy et al.), 411
- Corrosion, long-term immersion, effect of, on flexural properties of nitinol (Schwaninger, Sarkar, and Foster), 45
- Cortical plate, effects of incisor repositioning on monkey periodontium after expansion through (Engelking and Zachrisson), 23
- Cranial extension; postural response of head to bite opening in adult males (Daly, Preston, and Evans), 157
- Craniocervical angulation; intra- and interexaminer variability in head posture recorded by dental auxiliaries (Siersbaek-Nielsen and Solow), 50
- Craniofacial anatomy of bottlenose dolphin (*Tursiops truncatus*), comparative evaluation of, 263 (Abst.)
- asymmetry, study of, 263 (Abst.)
- changes during orthodontic treatment and 5-year posttreatment period, 81 (Abst.)
- growth, effect of surgical intervention on, 169 (B. rev.)
- on cephalometrics of skeletal change (Bookstein), 177
- possible sex-discriminant variables in, in clefting (Long, Jain, and Krogman), 393
- postnatal development of palatomaxillary region studied on human autopsy material (Melsen and Melsen), 329
- principal components of, for white Philadelphia males and females between 6 and 22 years of age (Buschang, Nass, and Walker), 508
- morphology and occlusal variation: relationships between craniofacial morphology and occlusal variations as observed in monozygous and dizygous twins, 82 (Abst.)
- of Angle's Class II and Class III malocclusions, hereditary factors in (Nakasima et al.), 150
- Cross-bite, posterior, factors affecting correction with midpalatal suture expansion, 354 (Abst.)
- Crouzon syndrome, 523 (B. rev.)
- Crowding, incisor, and incisor shape (Smith, Davidson, and Gipe), 231
- mandibular anterior, in orthodontically untreated individuals, study of factors relating to, 265 (Abst.)
- Crown height, clinical, of lower incisors, changes in, associated with canine retraction in extraction cases, 84 (Abst.)

D

- Demineralization, enamel, following orthodontic treatment (Mizrahi), 62
- Dental arch and tooth development, human, 351 (B. rev.)
- auxiliaries, intra- and interexaminer variability in head posture recorded by (Siersbaek-Nielsen and Solow), 50
- examination of medieval skulls from three regions of canton of Bern, 170 (Abst.)
- materials, biocompatibility of, 522 (B. rev.)
- office, medical emergencies in, 437 (B. rev.)
- terminology, clinical, Boucher's, 168 (B. rev.)
- Dentistry, illustrated dictionary of, 523 (B. rev.)
- stress related to, 353 (Abst.)
- Dentition, human, transition of, 436 (B. rev.)
- of South African Negro, 169 (B. rev.)
- Dentofacial cues in children with orofacial clefts, saliency of, 83 (Abst.)
- growth, human, 436 (B. rev.)
- morphology, relation between nasorespiratory function and (O'Ryan et al.) 403
- orthopaedics in correction of Class II malocclusions, 261 (Abst.)
- Deutsche Gesellschaft für Kieferorthopädie (e.v.), 443, 529
- Diabetes, possible greater periodontal disease risk in young persons with, 87
- Diagnosis and treatment, orthodontic, assessment of therapeutic position for (Mongini and Schmid), 513
- Diastema; physiologic permanent retention following space closure (Sperry and Abdulla), 42

- Divine proportion, 166 (Letter to editor)
 Dolphin, bottlenose (*Tursiops truncatus*), comparative evaluation of craniofacial anatomy of, 263 (Abst.)
 Dugoni, Arthur A., installed as president of California Dental Association, 358
 Dysplasia, maxillonasal, 166 (Letter to editor)

E

- Ectopic eruption of mandibular lateral incisor (Shapira and Kuf-tinec), 426
 Editorial, "clinical alteration of growing face": The Michigan Symposium through the eyes of the editor, 343, 430
 functional appliances questioned, 519
 oscillating orthodontic environment, 161
 progressive communication, 75
 radiation—diffusion or confusion, 257
 Elastic properties of nickel-titanium and beta titanium arch wires, comparison of (Kusy and Greenberg), 199
 Electromyographic biofeedback and occlusal splint therapy, comparison of effects of, on mandibular dysfunction, 262 (Abst.)
 Emergencies, medical, in dental office, 437 (B. rev.)
 Enamel demineralization following orthodontic treatment (Mizrahi), 62
 Epithelial attachment, method of obtaining, on endosseous implant, 80 (Abst.)
 Esthetics; multilingual bracket and mushroom arch wire technique (Fujita), 120
 Etching of young permanent teeth with acid gel (Brännström, Malmgren, and Nordenvall), 379
 Expansion, maxillary; observation of orthopedic force distribution produced by maxillary orthodontic appliances (Chaconas and Caputo), 492
 palatal, appliances, comparison of two, and their effect on palatal cross-sectional area, 526 (Abst.)
 using bonded appliance (Howe), 464
 Extraction; segmented arch approach to space closure (Burstone), 361

F

- Face, clinical alteration of growing; Michigan Symposium through eyes of editor, 343 (Editorial)
 growing, clinical alteration of, 430 (Editorial)
 height, lower; changes in nasolabial angle related to maxillary incisor retraction (Lo and Hunter), 384
 mask therapy, effect of, 439 (Abst.)
 Facial disfigurement; psychological and social aspects of orthognathic treatment (Heldt, Haffke, and Davis), 318
 growth, handbook of, 351 (B. rev.)
 pattern; surgical advancement of retrognathic mandible in growing children (Huang and Ross), 89
 height and depth, relationship between lower arch spacing/crowding and (Leighton and Hunter), 418
 soft tissue proportions (golden sections) and cephalometric measurements of golden sections of eleven factor analysis, correlation study of, 526 (Abst.)
 Fluoride, pretreatment of enamel surface with; etching of young permanent teeth with acid gel (Brännström, Malmgren, and Nordenvall), 379
 Force analysis, experimental, of contraction utility arch wire (Murphy et al.), 411
 and moment design parameters of selected orthodontic alignment loops, investigation of three-dimensional, 439 (Abst.)
 loss in retraction springs at 37° C. as affected by time, 525 (Abst.)
 orthopedic, distribution produced by maxillary orthodontic appliances (Chaconas and Caputo), 492

- Fränkel appliance, arch width development in Class II patients treated with (McDougall, McNamara, and Dierkes), 10
 treatment, orofacial changes resulting from, 354 (Abst.)
 Functional appliances questioned, 519 (Editorial)
 occlusion; evaluation of eccentric occlusal contacts in orthodontically treated subjects (Rinchuse and Sassouni), 251
 regulator; arch width development in Class II patients treated with Fränkel appliance (McDougall, McNamara, and Dierkes), 10

G

- Genetics; hereditary factors in craniofacial morphology of Angle's Class II and Class III malocclusions (Nakasima et al.), 150
 Gingiva, keratinized, width of, before and after orthodontic therapy, 84 (Abst.)
 Gingival recession; effects of incisor repositioning on monkey periodontium after expansion through cortical plate (Engelking and Zachrisson), 23
 Gingivitis; long-term benefits of orthodontic treatment on oral hygiene (Feliu), 473
 Golden sections; correlation study of facial soft tissue proportions and cephalometric measurements of golden sections and eleven factor analysis, 526 (Abst.)
 Growth and development, mid-face, effects of anti-nasal septal cartilage antibodies on, 82 (Abst.)
 augmentation, activator, 525 (Abst.)
 craniofacial and sutural; postnatal development of palatomaxillary region studies on human autopsy material (Melsen and Melsen), 329
 principal components of, for white Philadelphia males and females between 6 and 22 years of age (Buschang, Nass, and Walker), 508
 direction; relationship between lower arch spacing/crowding and facial height and depth (Leighton and Hunter), 418
 facial, handbook of, 351 (B. rev.)
 human dentofacial, 436 (B. rev.)
 mandibular, direction, primate experiments on (Tomer and Harvold), 114
 midfacial, lead acetate uptake in nasal septum during, in *Macaca fascicularis* (Moin and Yen), 236
 prediction and treatment planning, morphogenetic classification of malocclusion as basis for, 524 (Abst.)
 prepubertal and pubertal, skeletal and dento-alveolar changes in patients treated with bionator during, 170 (Abst.)
 profiles; longitudinal changes in maxilla and maxillary-mandibular relationship between 8 and 17 years of age (Jamison et al.), 217
 spurt, pubertal, maturation indicators and (Hagg and Taranger), 299

H

- Head and face, anthropometry of, in medicine, 438 (B. rev.)
 position, relationship of variations in, to lip and tongue pressure, 82 (Abst.)
 posture recorded by dental auxiliaries, intra- and interexaminer variability in (Siersbaek-Nielsen and Solow), 50
 postural response of, to bite opening in adult males (Daly, Preston, and Evans), 157
 Health education; long-term benefits of orthodontic treatment on oral hygiene (Feliu), 473
 Herbst appliance, hemifacial microsomia treated with (Sarnäs et al.), 68
 treatment, mechanism of Class II correction in (Pancherz), 104
 Hereditary factors in craniofacial morphology of Angle's Class II and Class III malocclusions (Nakasima et al.), 150
 Hester, H. Curtis, receives Distinguished Service Award, 528
 Holographic measurement of incisor extrusion (Burstone, Every, and Pryputniewicz), 1

Hospital care, orthodontist and, 434 (Letter to editor)

Hyoid and mandibular bone movements before and after surgical correction of mandibular prognathism (Miotti), 310

I

Implant, endosseous, method of obtaining epithelial attachment on, 80 (Abst.)

metallic; hemifacial microsomia treated with Herbst appliance (Sarnäs et al.), 68

In memoriam

Stephen C. Hopkins, 348

William H. Lewis, 435

Harvey Peck, 79

Curtis R. Russ, 435

Theodore Segal, 349

Incisor crowding, study of factors relating to, in orthodontically untreated individuals, 265 (Abst.)

extrusion, holographic measurement of (Burstone, Every, and Pryputniewicz), 1

lower, changes in clinical crown height of, associated with canine retraction in extraction cases, 84 (Abst.)

mandibular lateral, ectopically erupted (Shapira and Kufnec), 426

maxillary, retraction, changes in nasolabial angle related to (Lo and Hunter), 384

repositioning, effects of, on monkey periodontium after expansion through cortical plate (Engelking and Zachrisson), 23

retraction, influence of lip thickness and strain on upper lip response to (Oliver), 141

shape and incisor crowding: re-evaluation of Peck and Peck ratio (Smith, Davidson, and Gipe), 231

Injuries in orthodontic movement of impacted teeth, clinical assessment of (Boyd), 478

Intrapulpal axon response to orthodontic movement (Bunner and Johnsen), 244

J

Jaw function; histologic analysis of temporomandibular joint adaptation to protrusive function in young adult rhesus monkeys (*Macaca mulatta*) (McNamara, Hinton, and Hoffman), 288

movements, necessary to record? 261 (Abst.)

separation; postural response of head to bite opening in adult males (Daly, Preston, and Evans), 157

L

Laser holography, pulsed; holographic measurement of incisor extrusion (Burstone, Every, and Pryputniewicz), 1

Lead acetate uptake in nasal septum during midfacial growth in *Macaca fascicularis* (Moin and Yen), 236

Letters to editor, 78, 164, 347, 434

Lip and tongue pressures, relationship of variations in head position to, 82 (Abst.)

strength and lip function, relationship between, in posture and chewing, 353 (Abst.)

thickness and strain, influence of, on upper lip response to incisor retraction (Oliver), 141

Long-face syndrome; relation between nasorespiratory function and dentofacial morphology (O'Ryan et al.), 403

Lundstrom, Anders, opus honorarium, 262 (Abst.)

M

Malocclusions, Class II and Class III, hereditary factors in craniofacial morphology of (Nakasima et al.), 150

arch width development in Class II patients treated with Fränkel appliance (McDougall, McNamara, and Dierkes), 10

dento-facial orthopaedics in correction of, 261 (Abst.)

Malocclusion—Cont'd

MARS appliance (Clements and Jacobson), 445

mechanism of correction in Herbst appliance treatment (Pancherz), 104

Class III, in North Brittany, France, 171 (Abst.)

in Caucasian eighth graders, assessment of, in Indianapolis public school system, 84 (Abst.)

morphogenetic classification of, as basis for growth prediction and treatment planning, 524 (Abst.)

Mandible, postural and maximal activity in elevators of, before and after treatment of functional disorders, 352 (Abst.)

retrognathic, surgical advancement of, in growing children (Huang and Ross), 89

Mandibular and hyoid bone movements before and after surgical correction of mandibular prognathism (Miotti), 310

displacement, anterior, and condylar growth (Tonge, Heath, and Meikle), 277

dysfunction, comparison of effects of electromyographic biofeedback and occlusal splint therapy on, 262 (Abst.)

growth direction, primate experiments on (Tomer and Harvold), 114

plane angle; changes in nasolabial angle related to maxillary incisor retraction (Lo and Hunter), 384

prognathism: cineradiographic analysis of mandibular and hyoid bone movements before and after surgical correction (Miotti), 310

investigation of, after orthodontic treatment and retention, 352 (Abst.)

MARS appliance (Clements and Jacobson), 445

Masticatory system, functional disorders of, postural and maximal activity in elevators of mandible before and after treatment of, 352 (Abst.)

Maturation indicators and pubertal growth spurt (Hagg and Taranger), 299

Maxilla and maxillary-mandibular relationship, longitudinal changes in, between 8 and 17 years of age (Jamison et al.), 217

Maxillary orthodontic appliances, observation of orthopedic force distribution produced by (Chaconas and Caputo), 492

Maxillofacial cancer, detection of, 437 (B. rev.)

Maxillomandibular apparatus, treatment of some disorders of, 171 (Abst.)

Maxillonasal dysplasia, 166 (Letter to editor)

Measurements, cephalometric, 78 (Letter to editor)

Mechanical properties of orthodontic wires in tension, bending, and torsion (Drake et al.), 206

Medical emergencies in dental office, 437 (B. rev.)

Mesiodistal widths of unerupted canines and premolars, prediction of, utilizing buccolingual width of first molars, 84 (Abst.)

Michigan Symposium through eyes of editor, 343, 430 (Editorials)

Microsomia, hemifacial, treated with Herbst appliance (Sarnäs et al.), 68

Middle Atlantic Society of Orthodontists, 86

Midpalatal suture expansion, factors affecting posterior cross-bite correction with, 354 (Abst.)

Midwestern Society of Orthodontists, 267

Mineralized connective tissues, chemistry and biology of, 438 (B. rev.)

Motivation of orthognathic patients; psychological and social aspects of orthognathic treatment (Heldt, Haffke, and Davis), 318

Mottling; enamel demineralization following orthodontic treatment (Mizrahi), 62

Mouth breathing; cephalometric characterization of orthodontic patients who mouth-breathe, 353 (Abst.)

technique for simultaneous measurement of nasal and oral respiration (Gurley and Vig), 33

Multilingual-bracket and mushroom arch wire technique (Fujita), 120

- Muscle adaptation; surgical advancement of retrognathic mandible in growing children (Huang and Ross), 89
Mushroom arch wire and multilingual-bracket technique (Fujita), 120

N

- Nasal septum, lead acetate uptake in, during midfacial growth in *Macaca fascicularis* (Moin and Yen), 236
Nasolabial angle, changes in, related to maxillary incisor retraction (Lo and Hunter), 384
Nasorespiratory function and dentofacial morphology, relation between (O'Ryan et al.), 403
Nerve fiber changes; quantitative assessment of intrapulpal axon response to orthodontic movement (Bunner and Johnsen), 244
Neuromuscular adaptation in experimentally induced oral respiration in cat, 354 (Abst.)
News and comment, 86, 172, 266, 356, 440, 527
Nitinol alloy wire, ⁵⁵cobalt-substituted annealed, investigation of linear dimensional changes as function of temperature in (Andreassen, Montagano, and Krell), 469
effect of long-term immersion corrosion on flexural properties of (Schwaninger, Sarkar, and Foster), 45

O

- Occlusal contacts, eccentric, in orthodontically treated subjects, evaluation of (Rinchuse and Sassouni), 251
splint; assessment of therapeutic position for orthodontic diagnosis and treatment (Mongini and Schmid), 513
therapy, comparison of effects of electromyographic biofeedback and, on mandibular dysfunction, 262 (Abst.)
variation and craniofacial morphology, relationships between, as observed in monozygous and dizygous twins, 82 (Abst.)
Occlusion, advances in, 522 (B. rev.)
Opacities; enamel demineralization following orthodontic treatment (Mizrahi), 62
Open-bite, anterior, and amelogenesis imperfecta, 347 (Letter to editor)
skeletal, functional aspects of, 438 (Abst.)
Opus honorarium Anders Lundstrom, 262 (Abst.)
Oral embryology and microscopic anatomy, Permar's, 522 (B. rev.)
hygiene, controlled, periodontal conditions in adolescents subjected to multiband orthodontic treatment with, 524 (Abst.)
long-term benefits of orthodontic treatment on (Feliu), 473
nasal airflow measurement (Gurley and Vig), 33
respiration, experimentally induced in cat, neuromuscular adaptation in, 354 (Abst.)
Orofacial changes resulting from Fränkel appliance treatment, 354 (Abst.)
clefts, saliency of dentofacial cues in children with, 83 (Abst.)
Orthodontic adhesives, tissue reaction to (Davidson, Sheinis, and Shepherd), 502
alignment loops, investigation of three-dimensional force and moment design parameters of selected, 439 (Abst.)
appliances, maxillary, observation of orthopedic force distribution produced by (Chaconas and Caputo), 492
diagnosis and treatment, assessment of therapeutic position for (Mongini and Schmid), 513
environment, oscillating, 161 (Editorial)
movement of impacted teeth, clinical assessment of injuries in (Boyd), 478
quantitative assessment of intrapulpal axon response to (Bunner and Johnsen), 244
patient(s) incidence of canal calcification in (Delivanis and Sauer), 58
who mouth-breathe, cephalometric characterization of, 353 (Abst.)

Orthodontic—Cont'd

- relapse, long-term assessment of (Sadovsky and Sakols), 456
thesis listings 1982, 440
tooth movements, analytical mechanics and analysis of, 164 (Letter to editor)
treatment and retention, investigation of mandibular prognathism after, 352 (Abst.)
craniofacial changes during, and 5-year posttreatment period, 81 (Abst.)
effects; on cephalometrics of skeletal change (Bookstein), 177
enamel demineralization following (Mizrahi), 62
long-term benefits on oral hygiene (Feliu), 473
multiband, with controlled oral hygiene, periodontal conditions in adolescents subjected to, 524 (Abst.)
of traumatized teeth, root resorption after (Malmgren et al.), 487
Orthodontist and hospital care, 434 (Letter to editor)
Orthognathic surgery; surgical advancement of retrognathic mandible in growing children (Huang and Ross), 89
treatment, psychological and social aspects of (Heldt, Haffke, and Davis), 318
Orthopedic and functional therapy for hyperdivergent skeletal pattern, morphometric study of, 354 (Abst.)
force distribution produced by maxillary orthodontic appliances (Chaconas and Caputo), 492
Orthopedics, dento-facial, in correction of Class II malocclusions, 261 (Abst.)
temporomandibular, atlas of, 168 (B. rev.)

P

- Pacific Coast Society of Orthodontists, 442
to meet in Phoenix, 266
Palatal expansion, rapid, appliances, comparison of two, and their effect on palatal cross-sectional area, 526 (Abst.)
using bonded appliance (Howe), 464
Palatomaxillary region, postnatal development of, studies on human autopsy material (Melsen and Melsen), 329
Patient, adult; multilingual-bracket and mushroom arch wire technique (Fujita), 120
orthodontic, incidence of canal calcification in (Delivanis and Sauer), 58
Perich, Michael L., new treasurer of California Dental Association, 359
Periodontal conditions in adolescents subjected to multiband orthodontic treatment with controlled oral hygiene, 524 (Abst.)
disease, possibly greater risk of, in young diabetics, 87
Periodontium, monkey, effects of incisor repositioning on, after expansion through cortical plate (Engelking and Zachrisson), 23
Phosphoric acid gel, etching of young permanent teeth with (Brännström, Malmgren, and Nordenvall), 379
Plaque control; long-term benefits of orthodontic treatment on oral hygiene (Feliu), 473
Postural response of head to bite opening in adult males (Daly, Preston, and Evans), 157
Practice announcements, 267, 359, 529
Prediction; longitudinal changes in maxilla and maxillary-mandibular relationship between 8 and 17 years of age (Jamison et al.), 217
of mesiodistal widths of unerupted canines and premolars utilizing buccolingual width of first molars, 84 (Abst.)
Primate experiments on mandibular growth direction (Torner and Harvold), 114
Prognathism, mandibular: cineradiographic analysis of mandibular and hyoid bone movements before and after surgical correction (Miotti), 310
investigation of, after orthodontic treatment and retention, 352 (Abst.)

Prognathism—Cont'd

- relationship between lower arch spacing/crowding and facial height and depth (Leighton and Hunter), 418
- Protrusive function, histologic analysis of temporomandibular joint adaptation to, in young adult rhesus monkeys (*Macaca mulatta*) (McNamara, Hinton, and Hoffman), 288
- Psychological and social aspects of orthognathic treatment (Heldt, Haffke, and Davis), 318
- Pubertal growth spurt, maturation indicators and (Hagg and Taranger), 299
- Pulp calcification; incidence of canal calcification in orthodontic patient (Delivanis and Sauer), 58

R

- Radiation—diffusion or confusion, 257 (Editorial)
- Radiographs, oblique lateral and axial temporomandibular joint, and their reproducibility, 169 (Abst.)
- Radiography, cephalometric, atlas and manual of, 350 (B. rev.) panoramic, principles and practice of, 350 (B. rev.)
- Railsback, Richard M., new AAO president, 358
- Rapid palatal expansion appliances, comparison of two, and their effect on palatal cross-sectional area, 526 (Abst.)
- Ratio, Peck and Peck, re-evaluation of; incisor shape and incisor crowding (Smith, Davidson, and Gipe), 231
- Relapse, orthodontic, long-term assessment of (Sadowsky and Sakols), 456
- Repositioning, incisor, effects of, on monkey periodontium after expansion through cortical plate (Engelking and Zachrisson), 23
- Resorption, external; clinical assessment of injuries in orthodontic movement of impacted teeth (Boyd), 478
- Respiration, nasal and oral, technique for simultaneous measurement of (Gurley and Vig), 33
 - oral, experimentally induced, in cat, neuromuscular adaptation in, 354 (Abst.)
 - primate experiments on mandibular growth direction (Tomer and Harvold), 114
- Retention, physiologic permanent, following space closure (Sperry and Abdulla), 42
- Retraction, incisor, influence of lip thickness and strain on upper lip response to (Oliver), 141
 - maxillary, changes in nasolabial angle related to (Lo and Hunter), 384
 - springs, force loss in, at 37° C. as affected by time, 525 (Abst.)
- Rocky Mountain Society of Orthodontists, 87
- Root resorption after orthodontic treatment of traumatized teeth (Malmgren et al.), 487
- Ruff, Roberto M., receives award, 529

S

- Segmented arch approach to space closure (Burstone), 361
- Sex-discriminant variables, possible, in craniofacial growth in clefting (Long, Jain, and Krogman), 393
- Shape change; on cephalometrics of skeletal change (Bookstein), 177
- Shearing strengths of recycled direct-bonding brackets (Mascia and Chen), 211
- Skeletal and dento-alveolar changes in patients treated with bionator during prepubertal and pubertal growth, 170 (Abst.)
 - change, cephalometrics of (Bookstein), 177
 - pattern, hyperdivergent, morphometric study of orthopedic and functional therapy for, 354 (Abst.)
- Skulls, medieval, from three regions of canton of Bern, dental examination of, 170 (Abst.)
- Social and psychological aspects of orthognathic treatment (Heldt, Haffke, and Davis), 318
- Southern Society of Orthodontists, 359

- Space closure, physiologic permanent retention following (Sperry and Abdulla), 42
 - segmented arch approach to (Burstone), 361
- Spacing/crowding, lower arch, and facial height and depth, relationship between (Leighton and Hunter), 418
- Speech, anatomical and physiological bases of, 437 (B. rev.)
- Speidel, T. Michael, assumes new post, 172
- Stereometry, roentgen; hemifacial microsomia treated with Herbst appliance (Sarnäs et al.), 68
- Stress characteristics; observation of orthopedic force distribution produced by maxillary orthodontic appliances (Chaconas and Caputo), 492
 - related to dentistry, 353 (Abst.)
- Stucklen, Richard H., Collection of Serial Dental Casts of American Children, 442
- Surgical advancement of retrognathic mandible in growing children (Huang and Ross), 89
 - correction of mandibular prognathism, cineradiographic analysis of mandibular and hyoid bone movements before and after (Miotti), 310
 - intervention, effect on craniofacial growth, 169 (B. rev.)
- Synovial fluid pressure determination in temporomandibular joint, 264 (Abst.)

T

- Teeth, impacted, clinical assessment of injuries in orthodontic movement of (Boyd), 478
 - traumatized, root resorption after orthodontic treatment of (Malmgren et al.), 487
- Temporomandibular joint adaptation to protrusive function in young adult rhesus monkeys (*Macaca mulatta*), histologic analysis of (McNamara, Hinton, and Hoffman), 288
 - function and dysfunction, 436 (B. rev.)
 - radiographs, oblique lateral and axial, and their reproducibility, methodological study of taking of, 169 (Abst.)
 - synovial fluid pressure determination in, 264 (Abst.)
 - orthopedics, atlas of, 168 (B. rev.)
- Therapeutic position, assessment of, for orthodontic diagnosis and treatment (Mongini and Schmid), 513
- Thermodynamics; investigation of linear dimensional changes as function of temperature in 0.010 inch ⁵⁵cobalt-substituted annealed nitinol alloy wire (Andreasen, Montagano, and Krell), 469
- Tissue reaction to orthodontic adhesives (Davidson, Sheinis, and Shepherd), 502
- Titanium alloys; comparison of elastic properties of nickel-titanium and beta titanium arch wires (Kusy and Greenberg), 199
 - mechanical properties of orthodontic wires in tension, bending, and torsion (Drake et al.), 206
- Tongue and lip pressures, relationship of variations in head position to, 82 (Abst.)
- Tooth and dental arch development, human, 351 (B. rev.)
 - movements, orthodontic, analytical mechanics and analysis of, 164 (Letter to editor)
 - size and shape; incisor and crowding and incisor shape (Smith, Davidson, and Gipe), 231
- Transposition; ectopically erupted mandibular lateral incisor (Shapira and Kufnec), 426
- Trauma; root resorption after orthodontic treatment of traumatized teeth (Malmgren et al.), 487
- Treatment planning; longitudinal changes in maxilla and maxillary-mandibular relationship between 8 and 17 years of age (Jamison et al.), 217
- Twins, monozygous and dizygous, relationships between craniofacial morphology and occlusal variations as observed in, 82 (Abst.)

W

- Weber, Faustin, retires, 358
Wechsler, Morris H., assumes new post at University of Montreal, 356
Wire ligation; clinical assessment of injuries in orthodontic movement of impacted teeth (Boyd), 478
nickel-titanium and beta titanium, comparison of elastic properties of (Kusy and Greenberg), 199

Wire—Cont'd

- ⁵⁵cobalt-substituted annealed nitinol alloy, investigation of linear dimensional changes as function of temperature in (Andreasen, Montagano, and Krell), 469
nitinol, effect of long-term immersion corrosion on flexural properties of (Schwaninger, Sarkar, and Foster), 45
orthodontic, mechanical properties of, in tension, bending, and torsion (Drake et al.), 206
